Scanned documents: If documents are scanned, the hard copy must be retained for as long as the information is used or for 1 year after the date of scanning, with the exception of documents pertaining to personnel.

Any document containing information on the written particulars of an employee, including: employee's name and occupation, time worked by each employee, remuneration and date of birth of an employee under the age of 18 years; must be retained for a period of 3 years after termination of employment.

Section 51 of the Electronic Communications Act No 25 of 2005 requires that personal information and the purpose for which the data was collected must be kept by the person who electronically requests, collects, collates, processes or stores the information and a record of any third party to whom the information was disclosed must be retained for a period of 1 year or for as long as the information is used.

It is also required that all personal information which has become obsolete must be destroyed.

DESTRUCTION OF DOCUMENTS

Documents may be destroyed after the termination of the retention period specified in Annexure "A" hereto. Registration will request departments to attend to the destruction of their documents and these requests shall be attended to as soon as possible.

Each department is responsible for attending to the destruction of its documents, which must be done on a regular basis. Files must be checked in order to make sure that they may be destroyed and also to ascertain if there are important original documents in the file. Original documents must be returned to the holder thereof, failing which, they should be retained by Gauteng Metal Recyclers (Pty) Ltd pending such return.

After completion of the process, the General Manager of the department shall, in writing, authorise the removal and destruction of the documents in the authorisation document. These records will be retained by Registration.

The documents are then made available for collection by the removers of Gauteng Metal Recyclers (Pty) Ltd documents, who also ensure that the documents are shredded before disposal. This also helps to ensure confidentiality of information.

Documents may also be stored off-site, in storage facilities approved by Gauteng Metal Recyclers (Pty) Ltd.
